	Global Education Access Indonesia education world is growing fast judging from the wide range of school variety with different systems and study methods. According to CEO PSB Academy Dr. Steve Lai, there were about 1,847 pre-schools, 20 among them were national plus schools. Psychologist Ratih Ibrahim stated that with tons of school choices available, parents were forced to understand what was best for their children. One of the most important factors was to give children an access to a global education. This was crucial to prepare their children to be ready to face the globalization era.

AKSES *Pendidikan Global*

Dunia pendidikan di Indonesia berkembang sangat cepat, terlihat dari makin beragamnya sekolah dengan sistem dan metode belajar. Di wilayah Jakarta dan sekitarnya saja, berdasarkan data tahun 2004/2005, terdapat sekitar 1847 *pre-school*, termasuk 20 di antaranya merupakan sekolah *national plus*, menurut Dr. Steve Lai, CEO PSB Singapore School Academy saat menggelar *media briefing* di Jakarta, 11 Juni lalu. Psikolog

Ratih Ibrahim, MM, Psi mengatakan, banyaknya pilihan sekolah menuntut orangtua agar paham betul mana yang terbaik buat anak. Salah satu faktor penting, lanjut Ratih, adalah akses menuju pendidikan global.

"Membekali anak dengan pendidikan bertaraf global penting dalam era globalisasi saat ini. Para orangtua perlu memahami tantangan yang akan dihadapi anak-anak mereka dan bagaimana mereka dapat membuat pilihan yang tepat untuk hidup mereka," ujar Ratih. (ME)
