Why PSB Academy?

Founded in 1964 under the Singapore Economic Development Board, PSB Academy began with a mission to uplift the skills and knowledge of Singapore's workforce. Over the past 60 years, we have grown into a regional leader in higher education, celebrating our Diamond Jubilee in 2024 as a testament to our legacy of excellence.

An Award-Winning Educational Institution

Empowering Leaders of Tomorrow

Our approach to education focuses on what really matters: excelling in the New Economy. Through quality education, we develop future-ready graduates with the necessary skills, tools, and mindset needed to thrive in an evolving global landscape.

NURTURING

Adaptable and resilient future leaders who embody social intelligence and ethical values, embracing diverse perspectives to shape inclusive communities and contribute to a responsible global ethos.

FORWARD THINKING

Future-oriented thinkers and problem solvers who harness creativity, digital expertise, and interdisciplinary insight to anticipate challenges, embrace change, and create innovative solutions.

EXCELLENCE

Shaping leaders who embody excellence through multidisciplinary expertise and a relentless drive fuelled by curiosity and passion to achieve transformative breakthroughs.

PASSION

Individuals who are committed to making a positive impact, approaching challenges with energy and curiosity, while demonstrating accountability and professionalism in their decisions.

Graduate Employability

Findings of the 2025 GES survey done by PSB Academy also revealed notable results on our graduates post-graduation.

More than **8 in 10** Graduates are gainfully employed as of today[^]

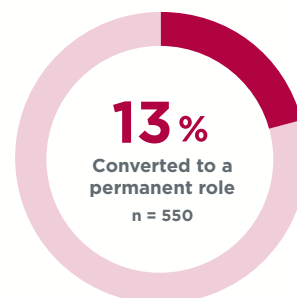

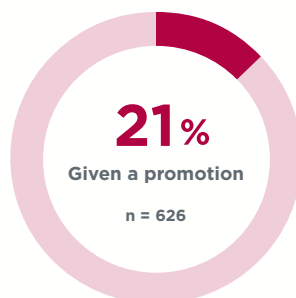

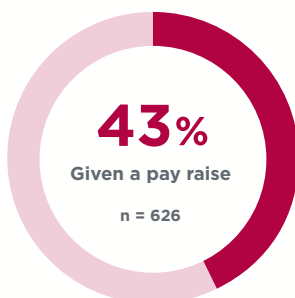

Close to **8 in 10** Graduates are employed within 6 months after final exam[^]

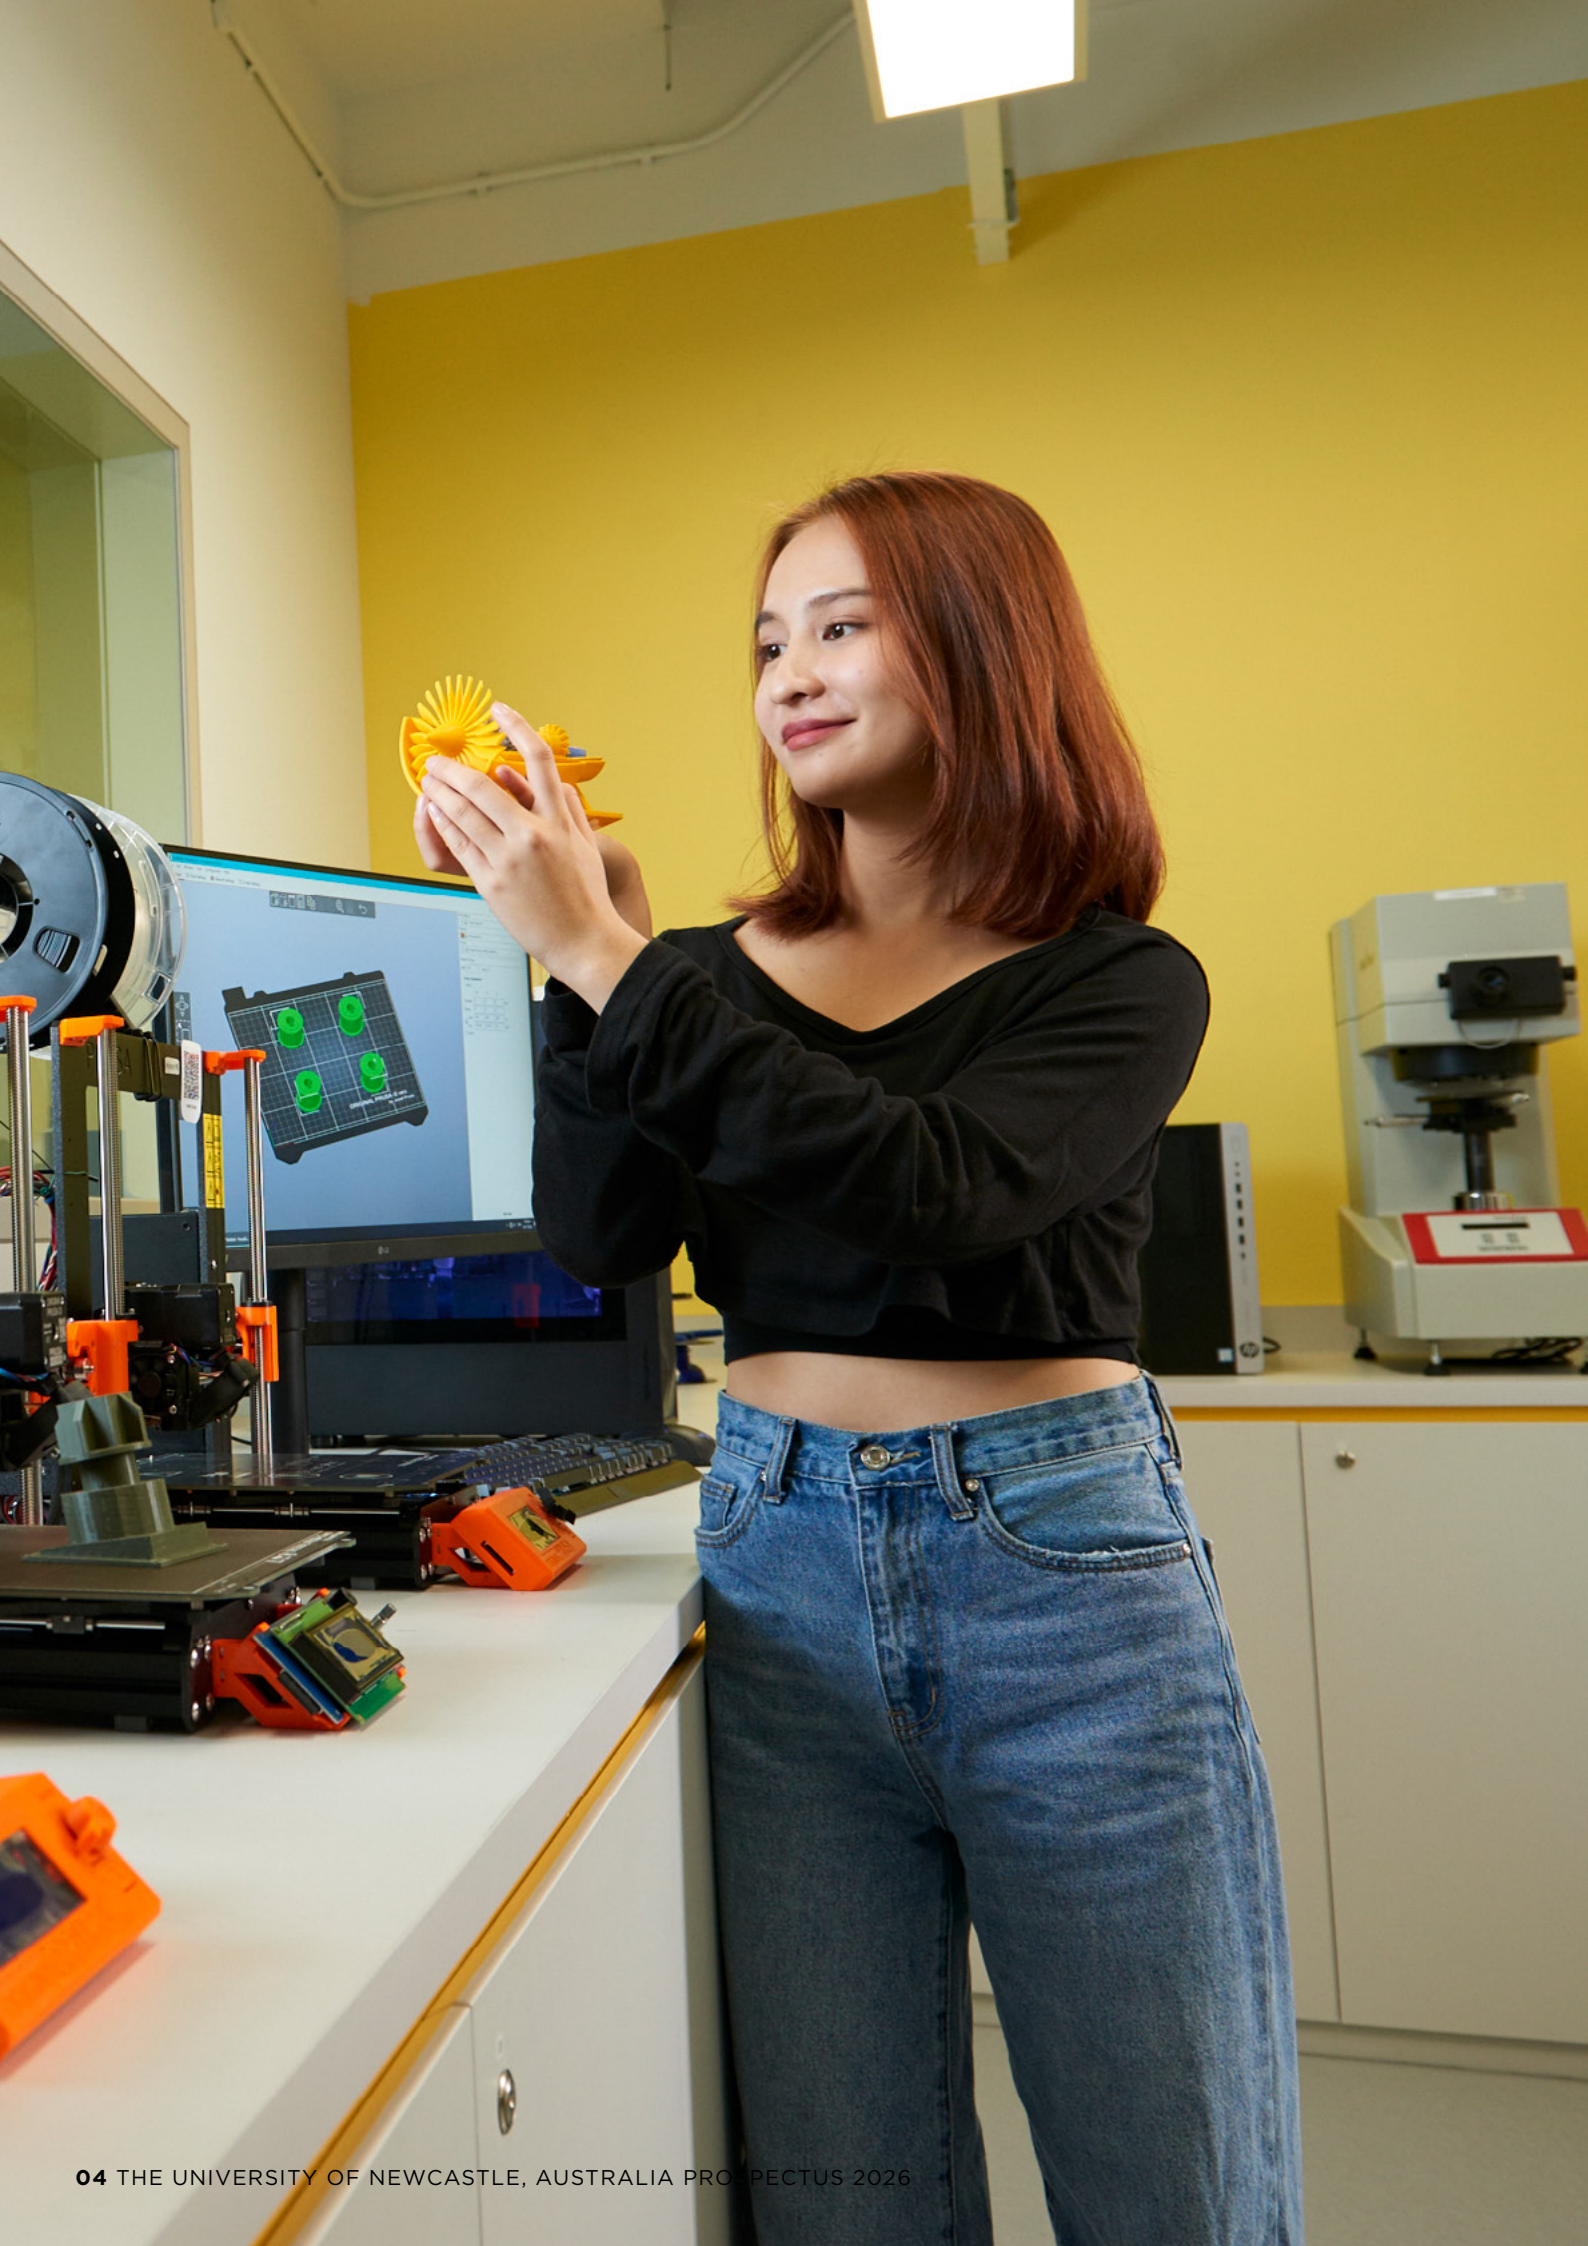

More than **2 in 5** Graduates earned a pay raise[^]

More than **1 in 5** Graduates earned a promotion[^]

[^]All statistics are based on PSB Academy Graduate Employment Survey 2025 conducted by Kadence International Pte Ltd on the 2024 graduating cohorts between August to September 2025. A total of 859 graduates participated in this survey as respondents, of which 49% are full-time (FT) graduates and 51% are part-time (PT) graduates. This survey is not the same survey conducted by SkillsFuture Singapore (SSG). As a result, the SSG Graduate Employment Survey may not be directly comparable due to differences in the sample size scope between the two surveys.

Our Singapore Campuses

PSB Academy is home to three campuses. Our City Campus (Main & STEM Wings) at Marina Square and Cathay Campus at Orchard are designed to blend learning and collaboration.

With a combined floor space of over 180,000 square feet, our campuses offer students a well-rounded learning experience. From industry-relevant facilities and multipurpose open spaces to interactive classrooms, students can immerse themselves in an environment that fosters collaboration, innovation, and the real-world application of knowledge.

Scan or tap to take a tour of our City & Cathay Campuses:

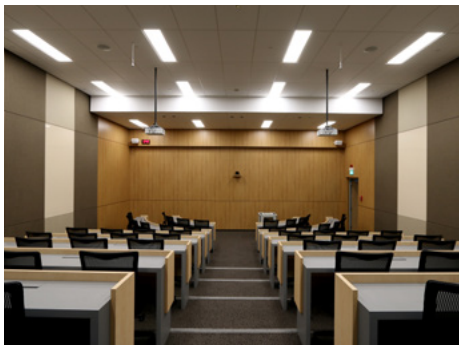

Radio and TV studios equipped with professional broadcasting equipment.

City Campus: Main Wing

Located in Marina Square, the Main Wing is designed as an integrated hub for learning and leisure. From industry-relevant facilities to classrooms fitted with writable walls, the campus provides students with vibrant spaces to learn, collaborate, and build their community.

MBA rooms with wireless display technology to support hybrid learning.

Lecture theatres that are wheelchair -accessible and designed for inclusivity.

Multipurpose open spaces for studying, collaboration, and student activities.

City Campus: STEM Wing

The STEM Wing is designed to advance science, technology, engineering, and mathematics (STEM) education, providing students with a future-ready learning environment. Equipped with modern facilities and industry-approved laboratories, students get hands-on learning experience that reflect real-world scenarios.

Electronics lab equipped with industry-standard software such as MATLAB, SolidWorks, AutoCAD, and more.

Chemistry and Life Sciences labs comprising High-Performance Liquid Chromatography (HPLC) instruments, Protein Purification Machines, and more.

Robotics and AI lab containing technology such as Turtlebot 3 Burgers, Arduino Braccio robotic arms and indoor drones.

Engineering labs with 3D printers, Tensile Test Machine, and more.

Sports Science labs fitted with 3D motion analysis cameras for biomechanics and performance research.

Cathay Campus

Housed within The Cathay, the campus spans more than 43,000 square feet and is designed with sustainability and collaboration in mind. Pockets of green spaces, open collaborative areas, and contemporary amenities are woven to create a vibrant hub for students to engage, collaborate, and thrive together.

Student lounges with variety of seating options to fit different learning styles.

Lecture theatres equipped with motion tracking cameras to simulate in-person interactions for distance learners.

From Student to Alumni

At PSB Academy, your journey doesn't stop at graduation. From the moment you step on campus, you'll be part of a vibrant community that supports your growth through student life, career services, and lifelong alumni connections. Here, learning, networking, and opportunities continue long after your studies.

As a student at PSB Academy, your experience will be anything but ordinary. Throughout your journey with us, you will have the opportunity to explore your passions and build meaningful connections through our vibrant student clubs and international communities.

Academic Certificates

Testimonials

The knowledge I've gained has been incredibly relevant. From creating effective social content to communicating value clearly and authentically, the skills I've acquired help me make a difference in how I engage with clients and stakeholders. Whether it's short-form videos or everyday interactions, this degree gave me an edge.

Yang Jing Heng

Bachelor of Communication
The University of Newcastle, Australia
Class of 2025

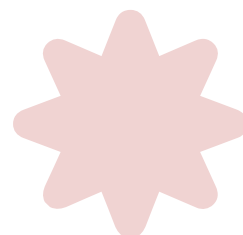

My academic journey through PSBA and The University of Newcastle, Australia is a refreshing and welcome one. The curriculum comprises a healthy mix of groupwork, challenging coursework and self-actualisation. My lecturers are experts in their respective fields and have a jovial nature towards any queries I hold, no matter the difficulty of questions. They have coached me diligently to push my level of skill and expertise to newer heights.

Mezan Khan

Bachelor of Business
The University of Newcastle, Australia
Class of 2025

“

After graduating from Diploma, I researched the various universities, and I realised that The University of Newcastle, Australia is a reputable university that offers accounting degrees. Through the accounting course, I have built an extensive knowledge of business and accounting. The degree is not only recognised by the Association of Chartered Certified Accountants (ACCA), and the Certified Practising Accountant Australia (CPA Australia), it is also in the list of universities recognised for admission to the Singapore Chartered Accountant Qualification (Foundation) programme.

Baek Suhyeon

Bachelor of Commerce
The University of Newcastle, Australia
Class of 2022

”

“

My education at UON has been invaluable in preparing me for my role as an Application Developer. The modules I took provided me with a comprehensive understanding of software development, programming languages, and project management techniques. This knowledge has been invaluable in designing and developing efficient, reliable, and scalable software applications. My time at UON has given me a competitive advantage in the job market as I demonstrated my knowledge and skills in software development.

Penikalapati Anusha

Bachelor of Information Technology
The University of Newcastle, Australia
Class of 2022

”

“

The course made me realise the wide range of career options available in the biomedical field and broadened my perspective on clinical and research studies. It has shifted my mindset that working in the biomedical industry would translate to donning a lab coat and working in a lab upon immediate graduation. However, there are many opportunities out there in healthcare, public health and diagnostics. I appreciated how the modules are designed in a way that shows everything is linked back to industrial real-world applications. Hence, the course is structured to develop critical thinking skills and guide you through a logical, step-by-step approach when tackling scientific problems.

Phang Jia Wen

Bachelor of Biomedical Science
The University of Newcastle, Australia
Class of 2026

”

“

Pursuing the Executive MBA with The University of Newcastle, Australia, at PSB Academy in Singapore has been an incredibly rewarding and transformative experience. The programme’s practical, real-world approach—combined with strategic insights from experienced lecturers—has deepened my leadership, innovation, and problem-solving capabilities, particularly in addressing supply chain disruptions, product innovation hurdles, and evolving consumer trends. These are skills I have been able to apply directly to my role.

Richard Sim

Executive Master of Business Administration
The University of Newcastle, Australia
Class of 2025

”

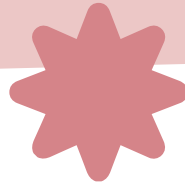

“

My Executive MBA journey at The University of Newcastle, Australia, has been nothing short of transformative — a powerful fusion of academic rigour, professional growth, and human connection that has reshaped both my career trajectory and personal outlook. What made the learning truly powerful was its immediate applicability. I found myself implementing classroom concepts in real time to optimise process initiatives and drive transformation projects.

Tay Venantious Linus

Executive Master of Business Administration
The University of Newcastle, Australia
Class of 2025

”

“

The Executive MBA programme has sharpened my strategic thinking and managerial acumen, enabling me to translate scientific and medical expertise into impactful commercial and organisational outcomes. It's strengthened my ability to lead with purpose, clarity and influence in the fast-evolving healthcare and biotech industries.

Dr Wendy Phua

Executive Master of Business Administration
The University of Newcastle, Australia
Class of 2024

”

“

The Executive MBA programme has been an incredibly valuable journey, offering both professional and personal growth. Its diverse and hands-on modules equipped me with advanced management techniques, strategic decision-making abilities, and enhanced leadership skills — all of which I've applied directly to real-world business scenarios.

Joie Lim

Executive Master of Business Administration
The University of Newcastle, Australia
Class of 2024

”
